The Lakeland Motor Museum nestles in the picturesque Leven Valley, close to the southern tip of **Lake Windermere**.

We offer a quality, all year, easily accessible rendezvous and welcome club visits.

The Lake District is a perfect holiday or short break destination. There is much more than its world famous natural environment, which includes England's five tallest mountains and deepest lake.

Each town and village has its own story to tell and character to discover and there is a wealth of history waiting to be explored.

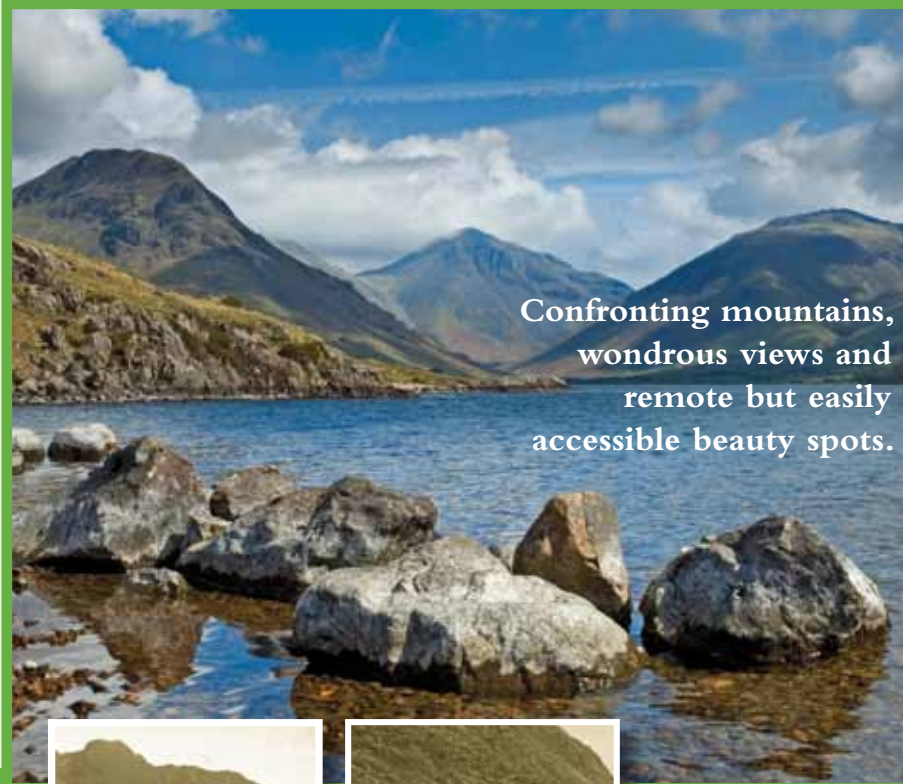

The Lakeland Motor Museum is much more than its name suggests.

We have lots of fascinating stories which irrespective of gender enthral all ages.

We have presented the motor car in a social context with ample tangible evidence depicting the history of motoring.

We offer event organisers a dedicated service by the provision of our assistance in terms of suggesting hotel accommodation and Lake District routes.

**Confronting mountains,
wondrous views and
remote but easily
accessible beauty spots.**

The museum has been included in many tour itineraries and we have welcomed many motor car club members on private visits.

Our on-site Café Ambio with a superb riverside setting offers a choice of group menus, a standard daily menu, or if required, can prepare to your requirements, including packed lunches to take away.

A large free car park provides space for members to park together. Museum admission for club visits based on 20 or more members qualify for our discounted group rate.

We appreciate that your members may wish to visit individually and offer a 10% discount* off our normal public admission rates, on presentation of their Club Membership Card.

We look forward to the possibility of welcoming your members to the Lakeland Motor Museum.

* Not valid against family or combined attraction tickets.

We offer great value combined tickets with Windermere Lake Cruises, enabling visitors to take in the delights of Bowness and Ambleside.

Throughout the early 1900's motor car manufacturers used the steep Lake District mountain passes to trial their latest models.
